

Acta Anglica Tyrnaviensia Review Form for Submitted Papers

Date of the review:	15 th of February, 2024
Title of the Paper:	Effect of Prior Terminological Preparation on the Quality of Interpreting Output in Teaching Future Interpreters

Article evaluation

	very good	good	fair	poor	very poor
1. Originality of the topic		X			
2. Scientific significance		X			
3. Methodology (i.e. data selection criteria, methods of providing evidence and argumentation, conciseness of the theses, etc.)		X			
4. Relevance and representativeness of bibliography				X	
5. Clarity of compositional structure			X		
6. Linguistic and stylistic adequacy		X			

Please mark your assessment by an "x" in the particular box.

Reviewer's recommendation (please mark by „x")

The article:	
	qualifies for publishing without any further corrections
X	qualifies for publishing with minor corrections
	qualifies for publishing with major corrections
	does not qualify for publishing

Please justify your opinion and indicate the need for the type(s) of any necessary correction(s):

This is an interesting paper reflecting the author's own research that brings some preliminary results given its limited sample. However, the paper would benefit from a more comprehensive elaboration of the importance of terminology for interpreters either in sections 1.1 or 1.2, integrating more recent literature (from the 2020s), to allow the topic to expand properly and develop into an analytical part.

The stated hypotheses require adding their motivational factors as hypotheses cannot exist in a vacuum but are always based on observations, prior or findings etc. What made the author arrive at a particular hypothesis?

Moreover, I recommend that the article should feature a short abstract for the overview purposes. Although the quality of language is acceptable, the paper would benefit from a more thorough revision to eliminate e.g. the following: missing article in the title of the paper (THE Effect), *translat* (instead of *translatum*) on Pg. 1 or linking words such as *as next*.
