Dear Klaudia,

I would like to let you know how pleased I have been with your teaching mobility that took place a little while ago now, back in November 2013, when you came to our university for several lectures with our post-graduate translation studies students.

I have particularly enjoyed your presentation of how the English language evolved over time and, above all, your lecture on translation techniques. This was of particular interest to our students who have learnt a lot and have been able to apply your teachings to their own end of academic year terminology and translation essay.

Once again, I would like to thank you for coming over to us and showing us that, whatever the language, translation considerations are the same everywhere!

Best regards,

Céline FIQUET
