COURSE DESCRIPTION

University: <i>University of Presov</i>	
Faculty/university workplace: <i>Faculty of Arts</i>	
Code: <i>1IESP/ZAPSY2/22</i>	Course title: <i>Fundamentals of Psychology for Social Work II. (Social psychology)</i>
Type, scope and method of educational activity: Type of educational activity: <i>Lecture, Seminar</i> Scope of educational activity: <i>1,1 hour per week, 13,13 per semester</i> Method of educational activity: <i>combined</i>	
Number of credits: <i>3</i>	
Recommended semester: <i>1st year ST ethics - social work (ETSOB09) social work (SOPb)</i>	
Study grade:	
Prerequisites:	
Conditions for passing the course: Form of assessment: <i>ongoing evaluation</i> Continuous evaluation: <i>During the semester students will process and presents seminar paper and essay. During the midterm week, student will attend a midterm examination in form of a knowledge test.</i> <i>Number of credits and time range for the conditions of passing the course:</i> <i>- 3 credits = 90 hours</i> <i>- subject teaching: 13 weeks; number of teaching hours 26 hrs.</i> <i>- individual work - preparation for the seminar, elaboration of the seminar work: 49 hours</i> <i>- independent study of professional literature: 15 hours</i> Final evaluation: <i>The final score will be calculated as the sum of points obtained from the seminar papers and knowledge test. To obtain grade A, student must receive at least 90 %, to obtain grade B 80%, to obtain grade C 70%, to obtain grade D 60%, to obtain grade E 50 %. The student who will obtain 49.99% and less, will be evaluated as grade FX.</i> <i>Number of credits and time range for the conditions of passing the course:</i> <i>- 3 credits = 90 hours</i> <i>- subject teaching: 13 weeks; number of teaching hours 26 hrs.</i> <i>- individual work - preparation for the seminar, elaboration of the seminar work: 36 hours</i> <i>- independent study of professional literature: 28 hours</i>	
Learning outcomes: <i>The student will be able to:</i> • <i>define the elementary terminology of developmental and social psychology within the scope of the curriculum,</i> • <i>name and with own words to explain the minimum requirements for the training of social workers within the developmental and social psychology, and define the competencies of social workers in these contexts,</i> • <i>describe the selected models of psychological development, to describe the major developmental changes during the different periods of human life, to differentiate age aspects in the context of an individual's social functioning, to appoint and explain the most common developmental and psychological problems of clients of social work and be able to apply the acquired knowledge while describing their social functioning,</i> • <i>explain the process of socialization and identify key socializing agents, define disorders of socialization, appoint and explain the most common socio-psychological problems of clients of social work and apply the acquired knowledge when describing their social functioning,</i> • <i>explain social behavior as a complex phenomenon, differentiate and describe the different styles of social behavior, identify their symptoms and apply the acquired knowledge when describing their social functioning,</i> • <i>define, classify and explain demanding situations and ways of coping with them and argue the importance of their knowledge in the context of social work,</i> • <i>explain assertiveness, name basic assertive rights and explain assertive skills,</i> • <i>explain the influence of small social groups and macro-social phenomena and processes and argue the importance of this knowledge in the context of social work,</i> • <i>manage elementary diagnostic activity, identify significant data about the client and his social environment and fault situations in his life, synthesize knowledge into higher units, to name and describe them in these contexts of social functioning.</i>	

Course content:

Psychology and social work - connections, intersections and differences. Psychological competences of social workers, the minimum requirements for psychological training of social workers.

Models of psychological development by Piaget and Erikson. Age differences in the problems of clients of social work. Frequent developmental and psychological problems of clients of social work.

Personality in a social context (social learning and socialization, socialization disorders, socio-psychological perception of identity, the Five Factor Model of personality and its use in social work).

Social behavior (social motivation, social attitudes, styles of social behavior, prosocial behavior, affiliation, attractiveness and love, aggression).

Social communication (stress situations and conflicts, assertiveness).

Small social groups (conformity, criminogenic groups, leadership, sociometry as a method for the analysis of relations).

Macrosocial phenomena and processes (mass phenomena, forms of collective behavior).

Frequent social and psychological problems of clients of social work - factors of origins, manifestations in life situation and social functioning of the client - options of work with clients with socio-psychological problems.
