COURSE DESCRIPTION

University: <i>University of Presov</i>	
Faculty/university workplace: <i>Faculty of Arts</i>	
Course code: <i>1IH/OBZPR/22</i>	Course name: <i>Final thesis defense</i>
Type, scope and method of educational activities: Type of training: <i>Subject of the final state examination</i> Method: <i>combined</i>	
Number of credits: <i>10</i>	
Recommended semester: <i>6.</i>	
Study grade: <i>1st</i>	
Prerequisites:	
Conditions for passing the course: When preparing the bachelor's thesis, the student follows the instructions of his/her supervisor and the Directive on the requirements for final theses, their bibliographic registration, control of originality, storage and access issued by the University of Presov. The scope of the thesis may be determined by the training institute, with a recommended length of 30 to 40 standard pages (54,000 - 72,000 characters) excluding appendices (from introduction to conclusion inclusive). The structure of the thesis and the formal arrangement of the thesis is determined in agreement with the supervisor by the Directive on the Requirements of Final Theses. The final variant of the bachelor's thesis bound in hardcover is handed over by the student to the department that announced the topic of the thesis. The deadline for submitting bachelor's theses is set in the schedule of the relevant academic year. <i>The bachelor's thesis is submitted in two printed copies, its electronic version, which must be identical to the printed version, is entered by the student into the system of registration of final theses in PDF format, no later than seven days after submission of the printed version. The originality of the thesis is assessed in the central registry of final theses. A report on the originality of the final thesis is prepared on the result of the originality check. Control of originality is a necessary condition of defense. Based on the result of the overlap of the thesis with other theses, the thesis supervisor decides whether the thesis can be the subject of defense.</i> <i>Part of the submission of the thesis is the conclusion of a license agreement on the use of a digital copy of the thesis between the author and the Slovak Republic on behalf of the university. After inserting the thesis into the Evidence of final theses of University of Presov, the author immediately submits a draft license agreement signed by him/her to the training workplace, which must be signed by an authorized representative of the university (the head of the training workplace) within 30 days of sending the work to the central registry of final theses.</i> <i>The bachelor's thesis is assessed by the supervisor and the opponent, who prepares the assessments according to the set criteria. The State Final Examination Board will evaluate the</i>	

course of the defence and decide on the classification at a closed meeting. When evaluating, it comprehensively assesses the quality of the thesis and its defence, taking into account the testimonials and the course of the defence, and grades it with one common mark. The final evaluation can be the same as in the assessments, but it can also be better or worse, depending on the course of the defense. The decision on the result of the defense will be announced publicly by the chairman of the commission together with the result of the relevant state final examination.

Number of credits and time frame for the conditions for passing the course:

10 credits = 300 hours

- self-search and self-study of specialized literature,
- individual work - processing the current state of issue, determining the goal of research and research methods, research implementation (data collection, analysis and interpretation of language data and texts), stylization of work, final proofreading, preparation for defense (introductory presentation of the work, reactions to assessments), implementation defense

In case of interruption of full-time teaching from the regulation of Public Health Authority of the Slovak Republic / Regional Health Authority / university / faculty management, teaching and examination will take place in the prescribed distance form.

Learning outcomes:

The graduate of the course masters the basic terminological instrument of research, knows the research methodology and the register of methods of historian's work.

Acquired skills: The student of the course is able to apply the level of knowledge and skills acquired during the 1st degree of study in their own work.

Acquired competencies: The student of the course is competent to present the results of their own study and research while complying with the requirements for the defense of the bachelor's thesis in terms of content and form. He/she is able to respond to the stimuli in the discussion and is competent to answer the questions of the opponent and the members of the commission in a cultured way.

Course content:

The defense of the bachelor thesis has a stable process:

- Introductory word of the graduate, presentation of the results of the final thesis.
- Presentation of the main points from the written opinions of the supervisor and the opponent.
- Answering of the student to the supervisor's and opponent's questions.
- Expert discussion on the bachelor's thesis with questions for the student.
- The bachelor's thesis is available to the board during the defense.
- The introductory word should include:
 - Brief reasoning of the choice of topic, its topicality, practical benefits.
 - Clarification of the objectives and methods used in the elaboration of the thesis.
 - The main content problems of the thesis.
 - Conclusions and practical recommendations reached by the author of the thesis.
- During the presentation, the student has his/her own copy of the bachelor's thesis or a written introduction. The student will present the speech independently. He/she can use computer technology. The introductory performance should be short, not exceeding 10 minutes.
