University: <i>University of Prešov in Prešov</i>	
Faculty: <i>Faculty of Humanities and Natural Sciences</i>	
Code: <i>2MAT/mMATH2/22</i>	Title of Course: <i>MATHEMATICS 2</i>
Form of Study: <i>Lectures</i> Number of contact hours: <i>26</i> per week: <i>2/0</i> per level/semester:	
Number of credits: <i>4</i>	
Semester: <i>summer</i>	
Degree/Level: <i>Bc.</i>	
Prerequisites: <i>Basic knowledge on a function of a real variable</i>	
Grading Policy (Assessment/Evaluation): <i>written test</i>	
Aims and Objectives: <i>Acquaintance with the theory and practical mastery of differential and integral calculus of a function of one variable.</i>	
Syllabus/Indicative Content: <i>1. Differential calculus of a function of a real variable, derivation of a function</i> <i>2. Applications of differential calculus (behaviour of a function, finding maximum and minimum of a function)</i> <i>3. Integral calculus of a function of a real variable, primitive function, indefinite integral, definite integral and its applications</i> <i>4. Improper integral, number series.</i> <i>5. Mathematics software for calculation.</i>
