<p>OCA16. Anotácia výstupu v anglickom jazyku / Annotation of the output in English <sup>9</sup>  <i>Rozsah do 200 slov / Range up to 200 words</i></p>	<p>The aim of this study is to introduce Antisthenes' declamations Ajax and Odysseus into the wider context of Socratic literature. The interpretation has as its starting point the question of whether it is possible to read these declamations from the viewpoint of Socratic dialectic. The first part reminds us of the difference between rhetoric and dialectic, which Plato adumbrated in the <i>Protagoras</i>, where the long monological declamation (<i>makros logos</i>) is opposed to the short dialogical declamation (<i>brachulogia</i>). The second part is devoted to the interpretation of some of Antisthenes' fragments which adumbrate how Antisthenes connects brachulogia with the investigation of virtue (<i>aretē</i>), but at the same time criticised Plato's attempts to find an essentialist understanding of them. It was against Plato that he evidently aimed his concept <i>oikeios logos</i> and the thesis concerning the impossibility of contradiction, which we might understand with the help of the Socratic doctrine of the harmfulness of unknowing. The last part tackles the various aspects of Antisthenes' declamations, relates them to the foregoing interpretation and shows their dialectical character, as well as Antisthenes' peculiar understanding of the relation between rhetoric and dialectic.</p>

	<p>Praktický význam tejto práce má niekoľko rovín: Predovšetkým, práca ukazuje, že na dejiny filozofie sa dívame optikou historikov 19. storočia, ktorí považovali za „veľkého“ filozofa Platóna a za „malého“ filozofa jeho súčasníka Antisthena. Vo 4. stor. pred Kr. však uplatňovali vzdelanci inú optiku a praktický charakter etiky robil z Antisthena dôležitejšieho filozofa ako bol Platón a jeho hľadanie večných ideí. Ďalšia rovina súvisí s tým, že filozofická tradícia bola vnímaná v staroveku inak ako dnes, takže Sókratés mohol byť považovaný za „otca filozofie“ a Antisthenés za jeho verného pokračovateľa (na rozdiel od Platóna alebo Aristotela), lebo Sókrata spájala s Antisthenom snaha o filozofický spôsob života, ktorý mal prioritu pred otázkami metafyziky, logiky alebo epistemológie. A nakoniec, táto práca ukazuje, že niektoré filozofické otázky zasadzovali antickí filozofi do iného kontextu ako my, takže naše porozumenie týmto otázkam závisí od pochopenia týchto kontextov a rámcov. / The practical significance of the work has several levels: Above all, reading the fragments helps readers understand that we look at the history of philosophy through the eyes of 19th century historians who considered Plato to be the "great" philosopher, and his contemporary Antisthenes to be the "little" philosopher. In the 4th century BC however, philosophers applied a different view, and the practical nature of ethics made Antisthenes a more important philosopher than Plato and his search for eternal ideas. Another level is that the philosophical tradition was perceived differently in ancient times than today, so Socrates could be considered the "father of philosophy" and Antisthenes as his faithful successor (unlike Plato or Aristotle), because Socrates was associated with Antisthenes by the pursuit of a philosophical way of life that had priority over questions of metaphysics, logic or epistemology. Finally, the paper helps readers understand that some philosophical questions have been set by ancient philosophers in a different context than we do, so our understanding of these questions depends on an understanding of those contexts and frameworks</p>
<p>OCA19. Charakteristika dopadu výstupu a súvisiacich aktivít na vzdelávací proces / Characteristics of the output and related activities' impact on the educational process Rozsah do 200 slov v slovenskom jazyku / Range up to 200 words in Slovak Rozsah do 200 slov v anglickom jazyku / Range up to 200 words in English</p>	<p>Dopad na vzdelávací proces vyplýva z nového prístupu k interpretácii klúčových témat antického myslenia. Štúdia predstavuje čitateľom Antisthenove reči Ajax a Odysseus v širšom kontexte sókratovskej literatúry. Interpretácia týchto rečí vychádza z otázky, či ich môžeme čítať z hľadiska sókratovskej dialektiky. V prvej časti sa tematizuje diferencia medzi rétorikou a dielkou, ktorú načrtáva Platón v Prótagogovi a dlhú monologickú reč (makros logos) stavia do protikladu s krátkou rečou dialektiky (brachylogia). V druhej časti sa analyzujú niektoré Antisthenove zlomky, ktoré ukazujú, v akom vzťahu je brachylogia so zdatnosťou (areté), a zároveň naznačujú cez Antisthenovov koncept oikeios logos možnú kritiku Platónovej verzie dialektiky. Posledná časť sleduje viaceré aspekty Antisthenových rečí a vysvetľuje, v čom by mohol spočívať ich dialektický charakter, ktorý stavia vzťah medzi rétorikou a dialektikou do nového svetla. / The impact on the educational process results from a new approach to the interpretation of key themes of ancient thought.
