

Study program: Slavonic studies - Rusyn language and literature (SLRsD – full-time)

Variant A: Slavonic studies – Rusyn language

Variant B: Slavonic studies – Rusyn literature

COURSE DESCRIPTIONS:

Units of study and pedagogical-educational activities

Compulsory courses:

- Language as a Symbolic Form
- Methodology of linguistics (variant A)
- Methodology of literary science (variant B)
- English in academic discourse
- Higher education

Obligatory elective courses:

Slavonic studies – Rusyn language (variant A):

- Contemporary Literary Rusyn language
- Chapters of the History of Rusyn language
- Chapters from the Rusyn dialectology
- Culture of language
- Linguoculturology
- Comparative Slavic linguistics

Slavonic studies – Rusyn literature (variant B)

- Chapters from the history of Rusyn literature I.
- Chapters from the history of Rusyn literature II.
- Literary comparatistics and genology
- Selected Chapters from Theory of Artistic Text
- Chapters from the history of Slavic literatures
- Theory of translation

Units of creative activity in the field of science:

- Dissertation exam (variant A)
- Dissertation defense (variant A)
- Dissertation exam (variant B)
- Dissertation defense (variant B)

Name of the higher education institution: <i>University of Prešov</i>	
Name of the faculty/university workplace:	
Course code: 1IFI/JZKSF/22	Course title: <i>Language as a Symbolic Form</i>
Type, scope, and method of educational activities: <i>Compulsory course</i> <i>Type of educational activity: lecture</i> <i>Scope of training activities: 13/0</i> <i>Method of training activities: combined</i>	
Number of credits: 10	
Recommended semester: 2.	
Degree of study: 3.	
Prerequisites: -	
Conditions for passing the course: <i>Continuous assessment:</i> - active participation, preparation of a written work on one of the topics specified by the teacher. The aim of the thesis is to demonstrate the ability to define the problem, compare, assess, and propose a solution to the problem, while independent work in the choice of methodology, approach and method of solution is assumed. Assessment and completion of the course: Exam Classification: A: 100,00 - 90,00 % B: 89,99 - 80,00 % C: 79,99 - 70,00 % D: 69,99 - 60,00 % E: 59,99 - 50,00 % FX: 49.99 % or less	
Learning outcomes: <i>after completing the course the student will be able to:</i> Knowledge gained: <ul style="list-style-type: none"> • <i>identify Cassirer's philosophy of symbolic forms</i> • <i>recognise symbolic forms and their significance for the philosophy of culture and anthropology</i> • <i>to define the basics in semiosis, semiotics and semiotic anthropology</i> Skills acquired: <ul style="list-style-type: none"> • <i>explain in your own words the nature, meaning and content of symbolisation in Cassirer's theory</i> • <i>determine the relationships between the different symbolic forms</i> • <i>to evaluate and understand culture through the philosophy of symbolic forms</i> • <i>interpret one's own culture through the philosophy of symbolic forms</i> Acquired competences: <ul style="list-style-type: none"> • <i>use the information to draw conclusions</i> • <i>understand the complexity of interrelationships in language</i> • <i>actively debate and present their views appropriately in written and oral form</i> 	
Course content: <i>Symbol - the key to the essence of man</i> <i>Language as a symbolic form</i> <i>Man and culture</i>	

Myth and religion as symbolic forms

Language - art - science

Definition of man in the categories of culture

Type, scope and method of educational activity: Compulsory course, variant A Type of educational activity: <i>Lecture</i> Scope of educational activity: Full-time: <i>1/0 per week, 13/0 per semester</i> Method of educational activity: <i>combined</i>	
Number of credits: 10	
Recommended semester: 2nd semester – full-time	
Degree of study: 3.	
Prerequisites: -	
Conditions for passing the course: Continuous assessment <ul style="list-style-type: none"> ● Assessment and completion of the course: Continuous assessment ● <i>Percentage of individual tasks in the overall evaluation of students:</i> (1) <i>Written work: compilation of Slovak-Rusyn-English linguistic dictionary (50 terms): 30%, (2) seminar work in the field of linguistics methodology: 30%, (3) written test on basic theoretical and methodological issues: 40%</i> ● <i>To obtain an A rating (excellent) he must obtain at least 90%, to obtain a B rating 80%, to obtain a C rating at least 70%, to obtain a D rating 60%, to obtain an E rating at least 50%. A student who obtains less than 50% will be graded FX.</i> ● <i>The final evaluation is calculated as the average of the evaluation of the written work (linguistic dictionary), seminar work and written test (according to choice).</i> 	
Learning outcomes: <i>The graduate of the course will obtain:</i> Skills: <ul style="list-style-type: none"> ● <i>Define and interpret in their own words the basic concepts and terms in the field of theoretical linguistics (linguistics methodology).</i> ● <i>Formulate research goals in the preparation of tasks necessary for successful completion of the discipline.</i> ● <i>Describe in their own words methodological and methodological procedures in modern Slavic linguistics.</i> Knowledge:	

- Discuss the subject of research and the planned methodological and theoretical-methodological procedure for writing the study, chapter of the thesis and the final dissertation.
- Present their work (review, professional work, seminar work and glossary of selected linguistic terms) in a group, discuss and justify the effectiveness of text creation in terms of professional and methodological procedures as well as the theoretical and methodological basis.
- Creatively apply the acquired theoretical knowledge to the analysis of the text and to the characteristics of the investigated phenomena.

Competences:

- Justify your opinion when choosing the subject of the study (final thesis), goals and research methods and when choosing theoretical literature.
- Demonstrate a good orientation in the history of classical as well as modern linguistics.
- To characterize the latest development trends in the current methodology of linguistics and in Slavic linguistics.
- Demonstrate good orientation in professional and theoretical literature

Course content:

- Language and its functions
- Communication process
- Basic functions of language: communicative, cognitive, representative and aesthetic
- Spoken and written language
- Font development. Slavic graphics
- Orthography and spelling reforms
- Language system and structure
- The concept of structure and system
- Word structure
- Sentence structure
- Sound plane
- Morphological level
- Syntactic level
- Lexical-semantic level

formulation,

- *gain an overview of interdisciplinary research methods, results and perspectives,*
- *master the forms of presentation of scientific work,*
- *present their work (seminar work, minimal work and dissertation work) in a group and in a scientific team, discuss and justify the effectiveness of text creation*
- *justify its position when choosing the subject of study, objectives and research methods and when choosing theoretical literature.*

Acquired knowledge: *The graduate of the course knows the basic methodological procedures and principles of literary research, masters the terminology of several literary areas, masters the basic categorical apparatus of comparative literature and Slavic philology. Students will be acquainted with the basic diagnostic instruments of literary science.*

Acquired skills: *The graduate of the course actively uses literary and terminological instruments in the field of Slavic philology. Analyzes and applies the acquired theoretical knowledge of methodological procedures to specific problems and phenomena related to the subject of dissertation research. They will be able to examine the theoretical properties of works and their impact on the reception of art literature*

Acquired competencies: *The graduate of the course independently uses and applies the acquired skills and knowledge of the procedures and principles of literary research to solve practical tasks associated with the research of the dissertation. It is aware of and evaluates, assesses the choice of the correct methodological procedure with regard to the subject of research. Formulates information about the procedure and results of solving the problem.*

Course content:

Poetics, tropics, stylistics and semantics of lyrical, epic and dramatic works.

Context of the work and the author.

Phenomenology, structuralism, deconstructivism and poststructuralism in the literary science of the 20th century.

The relationship between the fable and the subject, substance and theme, form and meaning, subject and intra-text communication, author and narrator, time and space, semantics and entropy in literary works.

Versology.

Comparative research of various literary phenomena - author poetics, interliterary communities, etc. standard Rusyn from a genetic and typological point of view.

University: University of Prešov	
Faculty/university workplace: CCKV	
Code: Full-time: 9UJK/CUJAA/22	Course title: English in academic discourse
Type, scope and method of educational activity: Compulsory course Type of educational activity: seminar Scope of educational activity: Full-time: 0/2 h per week, 0/26 per semester Method of educational activity: combined	
Number of credits: 5	
Recommended semester:	
<i>2nd, 4th, 6th semester</i>	Summer semester
Study grade: 3.	
Prerequisites: -	
<p>Conditions for passing the course: Assessment and completion of the course: Exam</p> <p>Final assessment: The final assessment is a set of written materials (portfolio and grammar test) and presentation of the project work, regular attendance, and active participation in the course. The portfolio consists of: The written form of the project of his/her own dissertation thesis. Curriculum Vitae (Europass). Resumé (about 3 – 5 pages) from the relevant research literature (30 – 50 pages). Presenting the project of own dissertation thesis.</p> <p>All assessment elements are compulsory (in case of absence, some additional assignments are given). The percentage requirements to achieve credits are as follows: To obtain assessment A (excellent) the student must gain at least 90%, to obtain assessment B 80%, to obtain assessment C at least 70%, to obtain assessment D 60%, to obtain assessment E at least 50%. The student who gains 49% and less, fails (FX). An overall assessment of the student is based on the oral presentation on a chosen topic, essays submitted during the semester, and the calculation of the percentage obtained in the test. In the case of the distant form of study, if written tests are replaced by home assignments, the student can take the exam only if he/she meets at least 50% of the home assignments. At the exam, the student undergoes a final test. The student will be successful in the exam if he/she obtains at least 50% of the required points in the final test. The final grade is determined by the sum of points obtained in the written test (in the case of the distant form of study – home assignments), seminar work, and in the oral exam, as follows: A (100-90), B (89-80), C (79-70), D (69-60), E (59-50), FX (49-0).</p> <p>Credits will not be awarded to a student who does not actively participate in seminars.</p>	

Teaching methods: the course requires the use of mass teaching methods, group teaching, verbal methods (monological, dialogical, work with literature), individual work (home assignments), if necessary, e-learning is also used (e.g. Moodle or MS Teams and others).

- Learning outcomes:

- After getting acquainted with basic information in the field of knowledge, skills, and competencies, the graduate of the course:
- has universal communication language competences and on this basis is able to present his/her own work and the research results as well as demonstrate knowledge of relevant literature;
- has sociolinguistic competence B2/C1 level (according to Common European Framework of Reference for Languages) in presenting himself/herself not only in everyday situations but also in presenting results of his/her own dissertation thesis;
- has pragmatic competence to perform meaningful interactions in various situations focused on his/her own professional work;
- is able to respond appropriately to inter/multicultural linguistic stimuli;
- critically analyses, creates, and formulates new hypotheses, judgments, and strategies for the further development of the scientific field;
- evaluates theories and various concepts as well as presents his/her thesis according to the criteria of speech communication using the latest technology;
- is able to create, implement and modify a substantial part of his/her research with scientific integrity and to determine the scientific or practical assumptions for problem-solving;
- has level B2/C1 in spoken and written form, in all language skills (listening, speaking, reading, and writing);
- in the field of practical skills, the graduate is able to apply his/her own findings resulting from the theoretical analysis and his/her own scientific research of a complex and interdisciplinary nature, as well as to propose new research methods in a foreign language;
- has critical thinking, and critical analysis as well as is able to select important and relevant information;
- at the application level, the graduate can apply the acquired knowledge and findings in English at various levels. He/she is able to present the results of his/her own research and is able to communicate his/her field of expertise to the wider scientific and lay public (e.g. at conferences, etc.) in English;
- has skills and methods of scientific research associated with his/her field of study corresponding to the current state of his/her knowledge in domestic and foreign cultural environments;
- has information about the criteria for effective presentations and constructive criticism of linguistic expressions according to the latest communication theories;
- through the acquired knowledge and competencies, the graduate is able to approach his/her own development independently, responsibly, and in an innovative way as well as is responsible for the development of society in the context of scientific and technical progress regarding ethical principles;
- is independent and autonomous in acquiring new linguistic issues with the possibility of expanding pedagogical knowledge and its use in other subjects and further study.

Course content:

The course focuses mainly on academic writing skills in English, writing techniques, organization of writing (criteria and requirements for writing abstracts, resumés, conference

papers, dissertation theses, etc.).

- Curriculum Vitae requirements: CV (Europass).
- Speaking techniques (organization and structure, use and information supported by relevant sources, academic ethics, effective transition between parts of speech).
- Reading comprehension and translation of relevant scientific texts.
- Vocabulary development with the focus on his/her own research area.
- Oral and written presentation of his/her own research work.
- Professional conversations on various topics (workplace, workload, study/study stay, etc.).
- Presentation of studied scientific literature, information about the dissertation thesis (topic, objectives, and methods of work, research findings, benefits, and professional cooperation).

IL_ZVSPD

Name of the higher education institution: University of Presov

Name of the faculty/university workplace: Faculty of Humanities and Natural Sciences	
Course code: 2PGD/ZVSPD	Course title: <i>Higher education</i>
Type, scope and method of educational activity: Compulsory course Type of educational activity: <i>Lecture, Seminar</i> Scope of educational activity: Full-time: <i>1/1 per week, 13/13 per semester</i> Method of educational activity: <i>combined</i>	
Number of credits: 5	
Recommended semester: 1st year 1st semester	
Degree of study: 3.	
Prerequisites:	
Conditions for passing the course: exam <i>During the semester, the doctoral student will receive:</i> <ul style="list-style-type: none"> • max. 15 points for active participation in all lessons, • max. 20 points for written elaboration of the selected issue in the thematic areas intended for the distance method of study (approximately 5 pages), • max. 65 points for the elaboration of the final thesis and its colloquial defense. <i>Credits will be awarded on the basis of meeting all the above requirements according to the classification scale A, B, C, D, E, FX - the current PU Study Regulations in Prešov.</i>	
Learning outcomes: <i>Doctoral students will gain a basic theoretical perspective in pedagogical, social and psychological as well as legislative issues of university education. This basis, i. understanding of basic pedagogical and psychological knowledge will form the starting points of beginning teachers so that they can develop their didactic skills and their adequate application in the teaching of specialized subjects. Independent work, exercises and subsequent verification of their quality will develop doctoral students' pedagogical, socio-psychological, communication, self-assessment and managerial-management competencies for teaching at the university - at the most general level.</i> <i>The graduate of the course can:</i> <ul style="list-style-type: none"> - <i>Independently and comprehensively describe the system of higher education pedagogy, based on analytical-synthetic thought procedures, compare models of teacher training in an international context and understand the social function of universities in broad links.</i> - <i>Independently and comprehensively characterize the system of university didactics, justify the need for didactics for teaching practice at universities and analyze the basic problems of university didactics.</i> 	

- *Comprehensively define the forms and methods of teaching at universities, analyze their specifics and evaluate the importance of their use in terms of educational goals.*
- *Comprehensively, in mutual contexts and interconnectedness define basic concepts related to the goal category (educational goal, competencies, goal taxonomy, consistency, goal measurability, etc.), evaluate the importance of goal formulation, especially with regard to their diagnostic function, based on didactic analysis to design a set of educational goals for a specific subject, to apply the principles of formulating a specific educational goal when setting a goal for a specific educational unit.*
- *Characterize the didactic cycle, critically evaluate the importance of individual phases of the didactic cycle, justify the process of preparation for the lesson, design a project of their own teaching unit on the selected topic, analyze and evaluate the importance of control and evaluation of the teaching process.*
- *Design, implement and on the basis of reflection and self-reflection critically evaluate the positives and negatives of their own teaching activities (self-assessment within the output - implementation of a seminar at the university in relation to the design of the teaching unit, its implementation from a didactic point of view and rhetoric) and the teaching activities of colleagues - doctoral students.*
- *Analyze the psychological conditionality of higher education, know the cognitive and personality specifics of the age of adolescence and early adulthood, and psychologically justified specific teaching process at the university with emphasis on the activity of the student.*
- *To propose complex solutions to the indicated pedagogical-psychological problems and to initiate their discussion within the group.*
- *Analyze and evaluate the legislative conditions of higher education and propose comprehensive solutions to the indicated problems.*
- *Assess the personal as well as wider societal impacts of the results of education based on innovative methods and forms of education.*
- *Recognize the existence of university teachers as a specific social group, its ethical standards, educational tasks. Argue and be able to defend their views before the academic public.*

Course content:

1. Introduction to university pedagogy.

Subject, objectives of the task of VŠP, strategies of higher education, in international and national comparison, models of teacher training (distance method).

2. Didactics of university pedagogy.

Professional standard of a university teacher, competences and competences, ethics of a university teacher.

Forms and methods of teaching at the university: lectures, seminars, exercises, testing and evaluation, practice, presentations, demonstrations.

Independent work of students, activating methods in higher education, distance e-learning education, group, cooperative teaching, project methods, University management - the university as an institution.

3. Psychological issues of university education.

Basics of psychology of learning and teaching at universities.

Psychological characteristics of adolescence, transition from high school to university, socialization, adaptation, learning styles.

The personality of a university teacher - educational and teaching styles, the creativity of a university teacher, ethics in the work of a university teacher.

Psychological principles of pedagogical and social communication. Spoken word culture. Rhetoric.

Solving difficult life situations, basics of psychohygiene.

4. Research activities at universities with an orientation on pedagogical issues. Research methods in pedagogical quantitative and qualitative design.

5. Basics of university legislation, copyright law, guidelines and standards for university education, grants, project creation (distance method).

6. Training of pedagogical skills (with a focus on didactically correct design of lectures, seminars / exercises, pedagogical communication, rhetoric and spoken word culture), reflection and self-reflection in seminars.

Name of the higher education institution: University of Presov	
Name of the faculty/university workplace: Center of Languages and Cultures of National Minorities	
Course code: 9URSK/KARSD	Course title: <i>Chapters from the Rusyn dialectology</i>
Type, scope and method of educational activity: Obligatory elective course, variant A Type of educational activity: <i>Seminar</i> Scope of educational activity: Full-time: <i>0/1 per week, 0/13 per semester</i> Method of educational activity: <i>combined</i>	
Number of credits: 5	
Recommended semester: 4 th semester – full-time	
Degree of study: 3.	
Prerequisites:	
Conditions for passing the course: Continuous assessment <ul style="list-style-type: none"> • <i>Attendance at seminars is mandatory.</i> • <i>Doctoral students will write a seminar paper, which will consist of a dialect text from the Ruthenian area and its analysis, focused on the characteristics of basic differences.</i> • <i>Doctoral students submit the seminar paper to the teacher in printed form within the set deadline.</i> • <i>Two weeks before the end of the semester, students take a written test.</i> • <i>The course is completed by continuous assessment, which will be enrolled to students in the credit week after meeting the specified conditions. Percentage of individual tasks in the overall evaluation: (1) active work in seminars: 20%, (2) seminar work: 40%, (3) written test: 40%</i> • <i>To obtain an A rating (excellent) must obtain at least 90%, to obtain a B rating 80%, to obtain a C rating at least 70%, to obtain a D rating 60%, to obtain an E rating at least 50%. A student who obtains less than 50% will be graded FX.</i> • <i>The final evaluation is calculated as the average of the evaluation of active participation in seminars, seminar work and written test.</i> 	
Learning outcomes: <i>The graduate of the course will obtain:</i> Skills: <ul style="list-style-type: none"> • <i>Describe the system and division of Carpathian dialects in eastern Slovakia, southeastern Poland, Transcarpathian Ukraine and Hungary and Romania.</i> • <i>To compare and characterize the basic and border areas of the Slovak and Rusyn dialects.</i> 	

- Explain the basic methodological procedure in dialect field research and methods of dialectological research,

Knowledge:

- Master the principles of phonetic transcription at the professional level when writing dialect texts.
- To characterize Carpathian dialects in the broader context of the Carpathian language area.
- Justify the importance of dialect research in the study of the oldest history of the language,

Competences:

- Demonstrate a good orientation in professional dialectological literature from Rusyn, Slovak, Polish and Ukrainian dialectology.
- Discuss the subject of research and the planned methodological and theoretical-methodological procedure for writing the study, chapter of the thesis and the final thesis in dialectology.
- Apply theoretical knowledge of dialectology to the analysis of dialect texts.
- To characterize the dialect basis of standard Rusyn from a synchronous and diachronic point of view.
- Define West Slavic-East Slavic language boundaries.

Course content:

- Stratification of the national language (literary language, interdialects, dialects).
- The importance of dialects for the study of the oldest history of Slavic languages.
- Basic and border areas of Slovak, Polish, Rusyn and Ukrainian dialects.
- Principles of Slovak, Rusyn and international phonetic transcription applied in dialectology.
- Review and evaluation of literature on Slovak, Rusyn and Ukrainian dialects.
- International atlas projects: Slavonic Linguistic Atlas, Pan-Carpathian Dialectological Atlas, Pan-European Linguistic Atlas.
- National linguistic atlases: Atlas of the Slovak language. A small atlas of Polish. Atlas of Ukrainian Spoken Schidnoji Slovaččyny

Knowledge:

- Discuss the subject of research and the planned methodological and theoretical-methodological procedure for writing the final thesis.
- Present their work (seminar work and linguistic analysis of the selected text) in a group, discuss and justify its effectiveness in terms of professional and methodological procedures as well as the theoretical and methodological basis.
- Creatively apply the acquired theoretical knowledge to the analysis of the text and to the characteristics of the investigated phenomena.

Competences:

- Justify your opinion when choosing the subject of the study (final thesis), goals and research methods and when choosing theoretical literature.
- Characterize, classify and give examples of basic differential phenomena in the field of confrontational grammar of standard Slovak and standard Rusyn.
- Demonstrate good orientation in professional and theoretical literature.

Course content:

- The relationship of Slavic languages. Current research on this issue.
- Slavic language branch in the present and the issue of so-called minority Slavic literary languages.
- Research methods in the comparative and confrontational grammar of Slavic languages [historical-comparative method, confrontational method, contrastive method, method of absolute and relative chronology, method of external and internal reconstruction, method of linguistic geography (linguistic geography)].
- Typological classification of Slavic languages (phonological, morphological, syntactic, lexical-semantic).
- The latest development trends on the sound, morphological, syntactic and lexical-semantic level in contemporary Slavic languages.
- Linguistic atlases (regional, national and international).

Name of the higher education institution: University of Presov	
Name of the faculty/university workplace: Center of Languages and Cultures of National Minorities	
Course code: 9URSK/LIKOG	Course title: <i>Literary comparatistics and genology</i>
Type, scope and method of educational activity: Obligatory elective course, variant B Type of educational activity: <i>Lecture</i> Scope of educational activity: Full-time: <i>1/0 per week, 13/0 per semester</i> Method of educational activity: <i>combined</i>	
Number of credits: 5	
Recommended semester: <i>3rd semester – full-time</i>	
Degree of study: 3.	
Prerequisites: <i>Methodology of literary science</i>	
Conditions for passing the course: Continuous assessment • <i>Percentage of individual tasks in the overall evaluation of students (1) Written work in the field of comparative literature 30%, (2) seminar work in the field of methodology 30%, (3) written test on basic theoretical and methodological issues: 40%.</i> • <i>To obtain an A rating (excellent) must obtain at least 90%, to obtain a B rating 80%, to obtain a C rating at least 70%, to obtain a D rating 60%, to obtain an E rating at least 50%. A student who obtains less than 50% will be graded FX.</i> <i>The final evaluation is calculated as the average of the evaluation of the written work, seminar work and written test (according to choice).</i>	
Learning outcomes: <i>The graduate is eligible:</i> - <i>discuss methods of comparative work,</i> - <i>explain the genological aspect in the interpretation of an artistic text,</i> - <i>interpret basic theoretical works from literary comparative studies.</i> - <i>define the basic stages of the interliterary process,</i> - <i>characterize research in world literature,</i> - <i>apply methodological and methodological procedures in the interpretation of texts from world and domestic (Ruthenian) literature.</i> - <i>master the theoretical and methodological problems of the work of art, historical poetics</i> - <i>apply theoretical questions from literary communication, literary criticism, versology to the analysis of artistic text</i> Acquired knowledge: <i>The graduate of the course is familiar with the basic methodological</i>	

procedures of literary research, masters literary terminology with a focus on comparative studies and area research in literature. He knows and can explain the various directions of Slovak literature.

Acquired skills: *The graduate of the course actively uses literary terminological instruments. Analyzes and applies the acquired theoretical knowledge of methodological procedures to specific problems and phenomena related to the subject of dissertation research.*

Acquired competencies: *The graduate of the course through the mastered methodology forms the basic methodological procedures of their own dissertation. It is aware of and evaluates, assesses the choice of the correct methodological procedure with regard to the subject of research.*

Course content:

Basic theoretical works of world, Slovak and Czech literary comparative studies.

Bilateral relations.

Czech - Slovak literary relations.

Inter-literary process.

World literature as a research problem.

Forms and ways of interliterary coexistence.

Intertextuality.

Relationship as a basic form of continuity.

More and less developed literature.

Word-formation formations.

Configuration of literary types and genres.

Campus comparative studies.

Forms of interliterary reception, translation as forms of reception, socio-typological context, problems of comparative analysis, etc.

Number of credits: 5	
Recommended semester: <i>4th semester – full-time</i>	
Degree of study: 3.	
Prerequisites: <i>Methodology of literary science</i>	
Conditions for passing the course: Continuous assessment <i>individual work 25%, test 25%, final work 50%.</i> <i>During the semester, an independent work will be evaluated focused on the analysis of a selected written text or oral presentation (25 points), one test (25 points) and a final work (50 points).</i> <i>At least 90% must be obtained for grade A (excellent), at least 80% for grade B, at least 70% for grade C, at least 60% for grade D and at least 50% for grade E. A student who obtains less than 50% will be graded FX.</i>	
Learning outcomes: <i>Graduate:</i> <ul style="list-style-type: none"> - gain an overview of the level of research of the basic theoretical properties of literary works and their impact on the reception of art literature, - will be able to characterize the peculiarities of individual literary types: poetry, epics and drama in Slovak, Ruthenian, Czech, Russian and Ukrainian literature, - demonstrate the ability to interpret a work of art, - is able to introduce the concepts of theory of interpretation, interpretive approaches to the internal construction of storytelling, - get acquainted with basic theoretical and methodological works in the theory of artistic text, - discusses the subject of research and the planned methodological and theoretical-methodological procedure for writing the final thesis - presents its work in a group, at the SVOČ, at a scientific conference and can justify the effectiveness of the selected procedure and applied methods, 	

- creatively applies the acquired theoretical knowledge to the analysis of texts and to the characteristics of the studied phenomena.

The knowledge acquired:

The graduate of the course is acquainted with the state as well as the latest developmental theoretical concepts in Slavic literature in a comparative aspect. Can characterize and reconcile the various periods of development of literary thinking, point out the critical developmental stages in the history of Slavic thinking about literature and describe the stimuli, benefits and problems of individual approaches.

Acquired skills: *The graduate of the course differentiates the value parameters of art literature in the narrower and broader contexts of Slovak, European and Slavic literatures.*

Acquired competencies: *The graduate of the course critically evaluates individual literary approaches, analyzes and evaluates their positives and negatives. He considers the comparative aspect to be a key element of his own scientific work, which he can apply to the topic of his dissertation.*

The student will be able to independently examine the basic theoretical properties of literary works and evaluate their impact on the reception of art literature.

Course content:

Poetics and tropics of lyrical, epic and dramatic works.

The relationship between the subject and the subject, the plot and the subject, narration and narrator, intra-text and subject communication, chronotopics in literary works.

Ontology of artistic text.

Verse and its textual realizations.

Relationship between semantics and entropy.

Problem deviation in the literature and their various authorial solutions.

Learning outcomes: <i>The student</i> <ul style="list-style-type: none"> - <i>acquire basic knowledge of translation and interpretation, basic science of translation and interpretation,</i> - <i>demonstrate the ability to raise topics: introduction to the practice of translation and interpretation,</i> - <i>characterizes psychological, sociological and institutional aspects,</i> - <i>explain the ethical dimensions of translation and interpretation,</i> - <i>discusses the subject of research and the planned methodological and theoretical-methodological procedure for writing the final thesis,</i> - <i>presents its work in a group, at the Student Scientific activities, at a scientific conference and can justify the effectiveness of the selected procedure and applied methods,</i> - <i>creatively applies the acquired theoretical knowledge to the analysis of texts and to the</i> 	

characteristics of the studied phenomena.

The knowledge acquired:

- translation theory (translation history, poetics, translation studies) and interpretation (interpretation and communication).*
- knowledge of the creation and structure of translation, translation analysis and translation competencies*
- specific types of translation, use of computers in translation, interpreting techniques*

Acquired skills:

- practical translation and interpretation into Slovak, while the acquired skills will be deepened within similarly focused philological subjects*
- understanding the place and role of translation in a broader cultural context*

Acquired competencies:

the graduate of the course is able to create a translation analysis, search for and apply dictionary knowledge, can translate the text into an active language, can critically identify the used translation procedures and techniques

Course content:

What is translation and interpretation.

Translation as a practice - working with dictionaries, lexicons, databases and other aids.

Interpreting as a practice - characteristics of interpreting methods.

The most well-known translation and interpreting theories and their creators.

Translation and interpreting as a language and cultural transfer.

Translation and interpreting as communication.

Problem and types of equivalence.

Translation automation options.

Machine translation.

Intersemiotic, intralingual and interlingual translation.

Translation models.

Translation of non-fictional and fictional texts.

Psychological aspects of translation and interpreting.

Sociological aspects of translation and interpretation.

Definition and classification of translation.

Translation in the world - theory, practice, education of translators and interpreters.

Number of credits: 40	
Recommended semester: 3rd semester - 8th semester according to ISP – full-time	
Degree of study: 3.	
Prerequisites: <ul style="list-style-type: none"> • <i>passing a dissertation exam</i> • <i>obtaining the required number of credits</i> 	
Conditions for passing the course: <ul style="list-style-type: none"> • <i>Submission of an application for permission to defend the dissertation after passing the dissertation examination and obtaining the required number of credits.</i> • <i>Submission of annexes to the application: dissertation with all the requisites, copies of publications, opinion of the institution and the supervisor, list of published works and responses.</i> • <i>Recommendation of the thesis for defense by the trade union commission.</i> • <i>Establishment of a commission for defense with the chairman and appointment of three opponents.</i> • <i>Elaboration of opinions by three opponents.</i> • <i>Determining the time and place of the dissertation defense.</i> • <i>Defending the dissertation in the form of a scientific debate in the presence of at least two thirds of the members of the commission, including two opponents.</i> • <i>A closed meeting of the commission with a secret ballot to agree to the award of a scientific-academic degree.</i> <p><i>The final decision of the dean on awarding the scientific-academic title to the doctoral student on the basis of all delivered materials</i></p>	
Learning outcomes: <ul style="list-style-type: none"> • <i>The doctoral student is able to present and defend his position in terms of the goal and its contribution, demonstrates language, professional culture and attitude to professional problems, independently and creatively use</i> 	

professional sources, analyze and evaluate the current state of the problem, synthesize and apply acquired theoretical knowledge in dissertation. The student will gain a higher level of knowledge and knowledge, which will be able to use in practice, will be able to work independently and creatively scientifically, can solve professional problems, as well as apply the results of scientific research in practice.

Course content:

- *Study Regulations of the University of Prešov in Prešov, Art. 29 - 44, regulates in detail all parts of the dissertation defense: application for permission of the dissertation defense, requirements of the dissertation, preparation of the dissertation defense, opponents of the dissertation and their opinions, defense of the dissertation, decision-making on awarding a scientific-academic title.*

Procedure for defending a dissertation:

- *the defense will be opened by the President; provide a brief curriculum vitae of the doctoral student, announce the topic of the dissertation, essential information from the opinion of the supervisor and the training workplace and an overview of the doctoral student's scientific or artistic work and responses to them;*
- *the doctoral student then briefly states the essential content of his / her dissertation, its results and benefits;*
- *opponents present the essential content of their opinions; the absent opponent shall be read in full by the chairman or a member of the commission appointed by him;*
- *the doctoral student will take a position on the opinions of the opponents, in particular he will comment on all objections and comments and answer their questions;*
- *the chair will inform those present of further opinions and statements and open a discussion in which all present can take part; the discussion verifies the accuracy, justification, scientific or artistic origin and relevance of the knowledge contained in the dissertation, as well as the accuracy and conciseness of the opponents' opinions;*
- *During the discussion, the doctoral student will answer all questions and take a stand on all suggestions and objections of its participants.*

Recommended literature:

The basic literature is listed in the individual study plan of the doctoral student. Further literature is conditioned by the topic of the dissertation.
