### **The content of the field of the habilitation and the inauguration proceedings**

**Name of the field of habilitation and inauguration proceeding:** Systematic Philosophy

A group of five persons responsible for the development and quality assurance of the field of habilitation and inauguration proceedings in the field Systematic Philosophy proves by their scientific and publication activities their international quality. The scientific-research focus of the field of habilitation and inauguration proceedings Systematic Philosophy is created by the staff of three institutes: the Institute of Philosophy, the Institute of Ethics and Bioethics and the Institute of Aesthetics and Art Culture at the Faculty of Arts of University of Prešov. Each professor and associate professor working at these institutes is profiled in a different area of systematic philosophy – from the history of philosophy, through metaphysics, epistemology, axiology, philosophical anthropology, political philosophy, moral philosophy, to applied ethics and theory of aesthetics. Regarding the scientific and research focus of the staff, individuals and entire teams participate in various research projects, and the outputs of these projects form a major part of their publishing activities.

<b>Definition of the field of the habilitation and inauguration procedure</b>
---

<p>Habilitation and inauguration proceedings in the field of Systematic Philosophy are assigned to the field of study Philosophy, which is carried out at all three levels of study. The content of the field of the habilitation and inauguration proceedings is fully compatible with the field of study Philosophy. The field of study Philosophy includes systematic knowledge of a theoretical nature in its base, which reflects issues of philosophical logic, ontology, epistemology, methodology of the sciences, as well as knowledge of a practical or applied nature, which relates to the field of ethics, aesthetics, theory of art, and political and social philosophy. In addition to knowledge of a systematic nature, the field of study Philosophy includes knowledge of the history of philosophy, the history of ethics and the history of aesthetics. All the above-mentioned knowledge is developed through intellectual skills that cultivate critical thinking and analytical abilities.</p>
