

Teaching practice 2 (winter term 2nd year MA):

1. LESSON PLANS: Students are expected to provide a lesson plan of each lesson taught with a brief (up to 150 words) self-evaluation of each lesson. If parallel classes are taught with the same lesson plan students might hand in **one** lesson plan with the indication (3A, 3B), however, the self-evaluation needs to be provided **for each lesson taught**. Students can hand in the original lesson plans they used in their lessons. The portfolio can include sample materials students used for teaching. The portfolio will be returned back to the student after evaluation.

2. EVALUATION OF OWN PROGRESS: Students will compare this teaching practice experience with the previous one and evaluate their own progress highlighting the most and the least successful areas. The important point is to identify the focus for the last teaching practice – what the student wants to improve the most. Students can express also their perception of help that their supervisors or school authorities offered. **Maximum length is 300 words.**

N.B. The portfolio needs to be handed in not later than **two weeks** before the semester ends.
