

COURSE DESCRIPTION

University: <i>University of Presov</i>	
Faculty/university workplace: <i>Faculty of Health Care</i>	
Code: <i>6KFZ/KLCF4-ER/25</i>	Course title: <i>Practical Training in Physiotherapy 4</i>
Type, scope and method of educational activity: Type of educational activity: <i>Practical seminar</i> Scope of educational activity: <i>12 hour per week, 156 per semester</i> Method of educational activity: <i>Attendance</i>	
Number of credits: 8	
Recommended semester:	
Study grade: <i>Bachelor</i>	
Prerequisites: <i>6KFZ/KLCF3/22 - Clinical Examination in Physiotherapy 3</i>	
Conditions for passing the course: Form of assessment: Continuous evaluation: <i>The course is completed by continuous assessment. The student is required to complete 90% of practical training.</i> <i>Evaluation of practical skills based on the evaluation of the teacher during the semester. Interim evaluation of the Clinical Practice Recorder I.</i> <i>Assessed credit</i> <i>Participation in clinical exercises (156 hours of workload)</i> <i>Elaboration of tasks in the clinical recorder (24 hours of workload)</i> <i>The student success rate must be at least 50%.</i> <i>a) A: 100,00 – 90,00 %</i> <i>b) B: 89,99 – 80,00 %</i> <i>c) C: 79,99 – 70,00 %</i> <i>d) D: 69,99 – 60,00 %</i> <i>e) E: 59,99 – 50,00 %</i> <i>f) FX: less than 49,99 %</i> Final evaluation: <i>The student success rate must be at least 50%.</i> <i>a) A: 100,00 – 90,00 %</i> <i>b) B: 89,99 – 80,00 %</i> <i>c) C: 79,99 – 70,00 %</i> <i>d) D: 69,99 – 60,00 %</i> <i>e) E: 59,99 – 50,00 %</i> <i>f) FX: less than 49,99 %</i>	
Learning outcomes: <i>The graduate of the course can:</i> <ul style="list-style-type: none"> - name the basic forms of physiotherapy, - describe basic therapeutic procedures in physiotherapy - practically apply physiotherapeutic methodologies - implement selected examination procedures in clinical conditions. - perform basic therapeutic methods of physiotherapy in clinical disciplines. Knowledge: <i>Students, after getting acquainted with basic information, have an adequate level of understanding and skills at an adequate level for:</i> <ul style="list-style-type: none"> - Defining and describing physiotherapy methodologies - Explaining the principles of methodologies and their use in practice - Description and qualitative evaluation of movement from the point of view of kinesiology - Characterization and diagnosis of pathological manifestations of movement Skills: <i>The student has the ability to apply knowledge especially in the field of cognitive and practical:</i> <ul style="list-style-type: none"> - Apply investigative and therapeutic methods of physiotherapy in practice - Based on the initial kinesiological analysis, plan a physiotherapeutic plan for the elimination of pathology - Develop new concepts of kinesiological analysis and apply them in practice 	

Acquired competencies:

- The student has the ability and competences to apply knowledge, especially in the field of cognitive and practical.
- The student is able to apply examination and therapeutic methods of physiotherapy in practice, to plan a physiotherapeutic plan for the elimination of pathology on the basis of initial kinesiological analysis, to develop new concepts of kinesiological analysis and to apply them in practice.

Course content:

Practical exercises in selected clinics.

Examination of the musculoskeletal system, specific functional tests.

Implementation methodologies: passive and active exercises (exercises aids, exercise with resistance), vascular and respiratory gymnastics, analytical and rehabilitation procedures. Measuring the range of motion of joints, length measurement circuits and limbs and trunk.

Implementation of basic physiotherapy methodologies and examinations under the supervision of the lecturer to individual departments.
