

UNIVERSITÀ DEGLI STUDI DI GENOVA

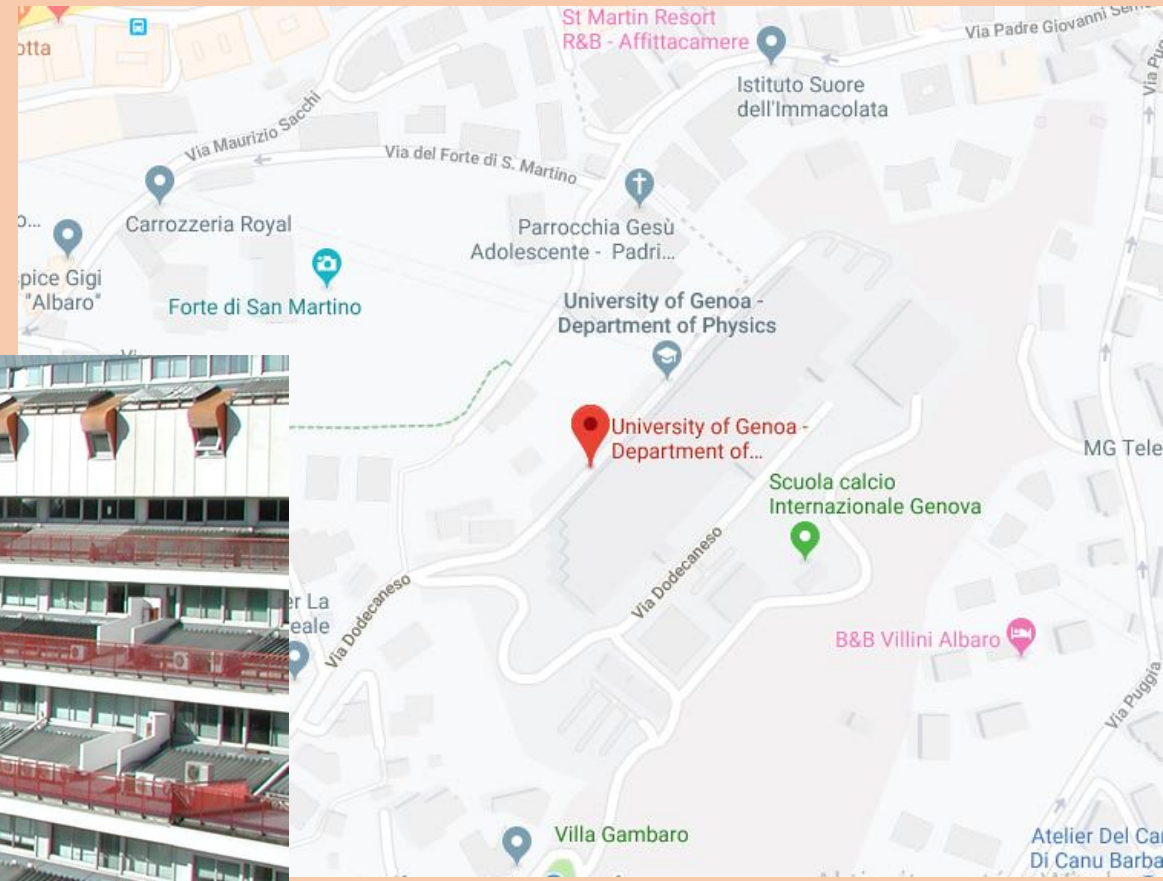

Lenka Bašistová

Università degli studi di Genova

Contact person: Prof. Mauro Giovannini

Department: The Department of Chemistry and Industrial Chemistry (DCCI)

Address: Via Dodecaneso 31
16146 Genova (GE)
Italy

Department of Chemistry and Industrial Chemistry

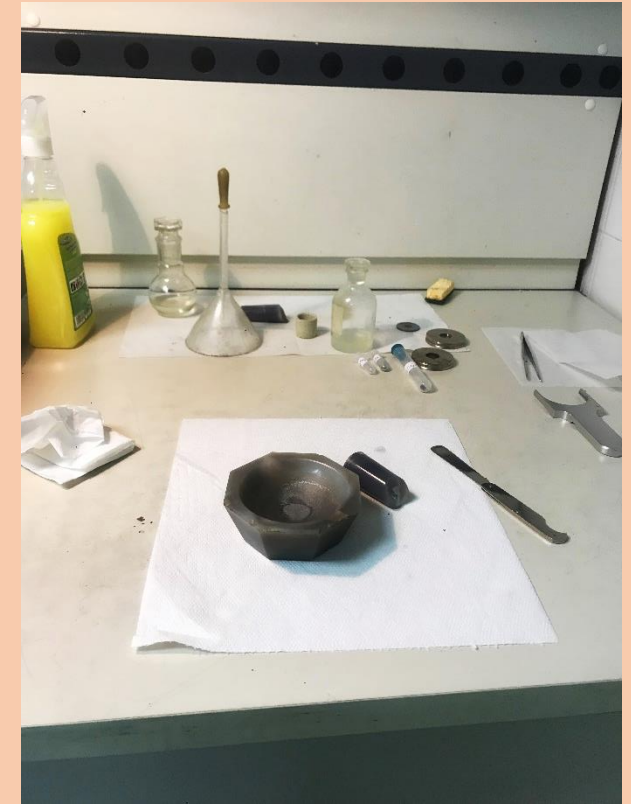

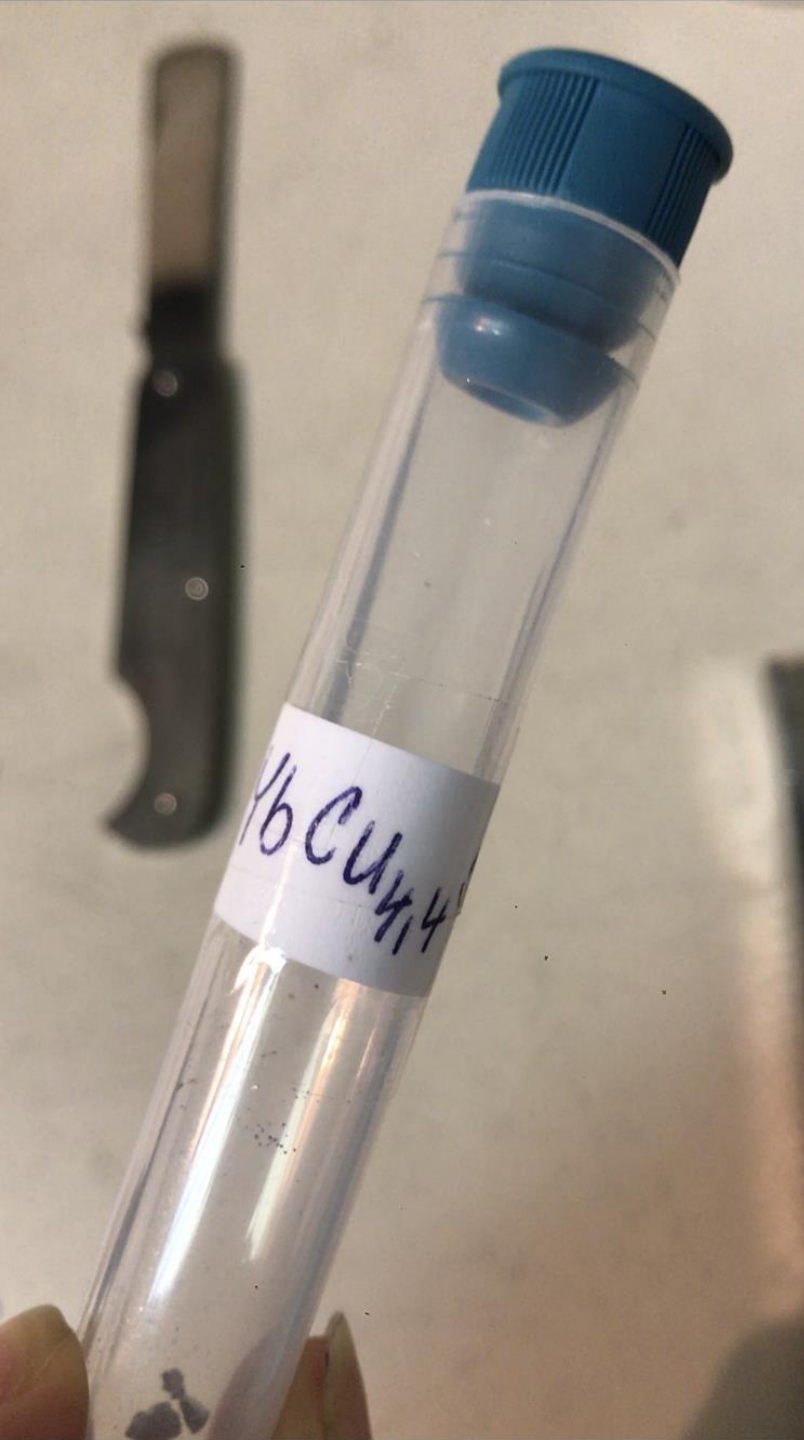

The Department of Chemistry and Industrial Chemistry (DCIC) was set up in 1996, as a result of merging the four former departments of General Chemistry, Industrial Chemistry, Physical Chemistry and Organic Chemistry within the Faculty of Mathematics, Physics and Natural Sciences.

The department is housed in one building in Via Dodecaneso, adjacent to the Departments of Physics, Mathematics and Information Technology, and occupy the small valley of the Valle Puggia area. DCIC offers a three-year BSc degree course in Chemistry and Chemical Technologies and MSc degree courses in Chemical Sciences, Industrial Chemistry and Materials Science and Engineering; It is the associate department for the three-year MSc degree course in Materials Science.

Traineeship

- Physics in practice – work in laboratory
- synthesize and characterize novel based-Yb and –Eu intermetallics compounds

- preparation of my intermetallic samples
- X-ray diffraction, SEM

Transportation

- **train station** – Genova Piazza Principe
- **bus station** – Fanti d'Italia (FLIXBUS – good connection to Milan, airport Bergamo)
- **airport** – Aeroporto di Genova
- **boat tours...**

Places to visit

Acquario di Genova

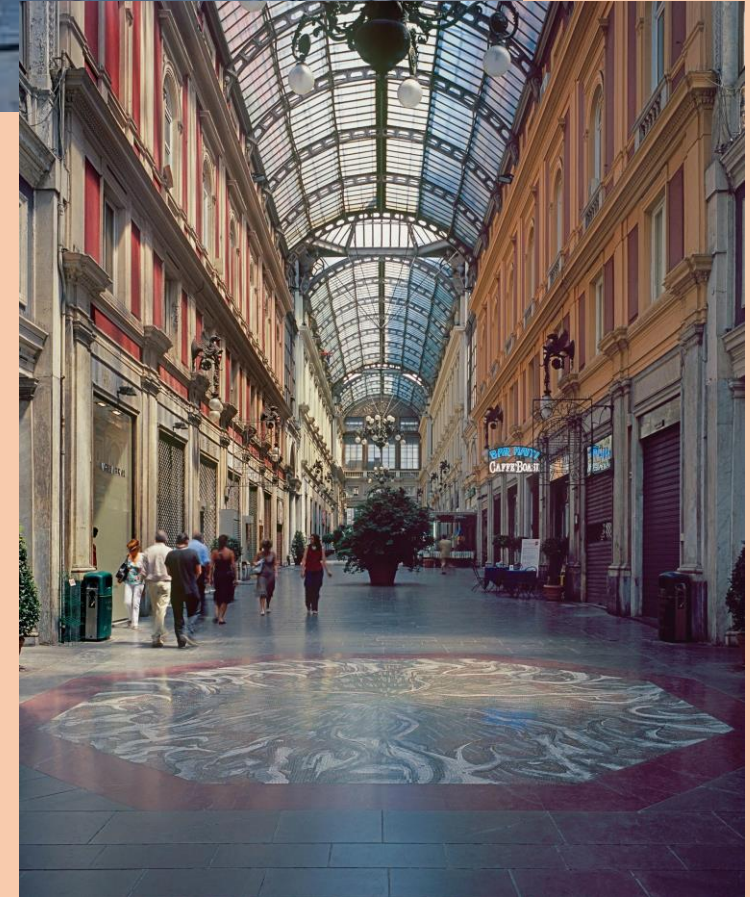

Porto Antico

Piazza De Ferrari

Corso Italia

Galleria Mazzini

Accommodation

ISTITUTO SUORE DEL BUON PASTORE

Via G. Parini, 16 - Albaro
16145 - Genova (GE)

PROS:

- low price
- safe place
- 20 minutes far from university

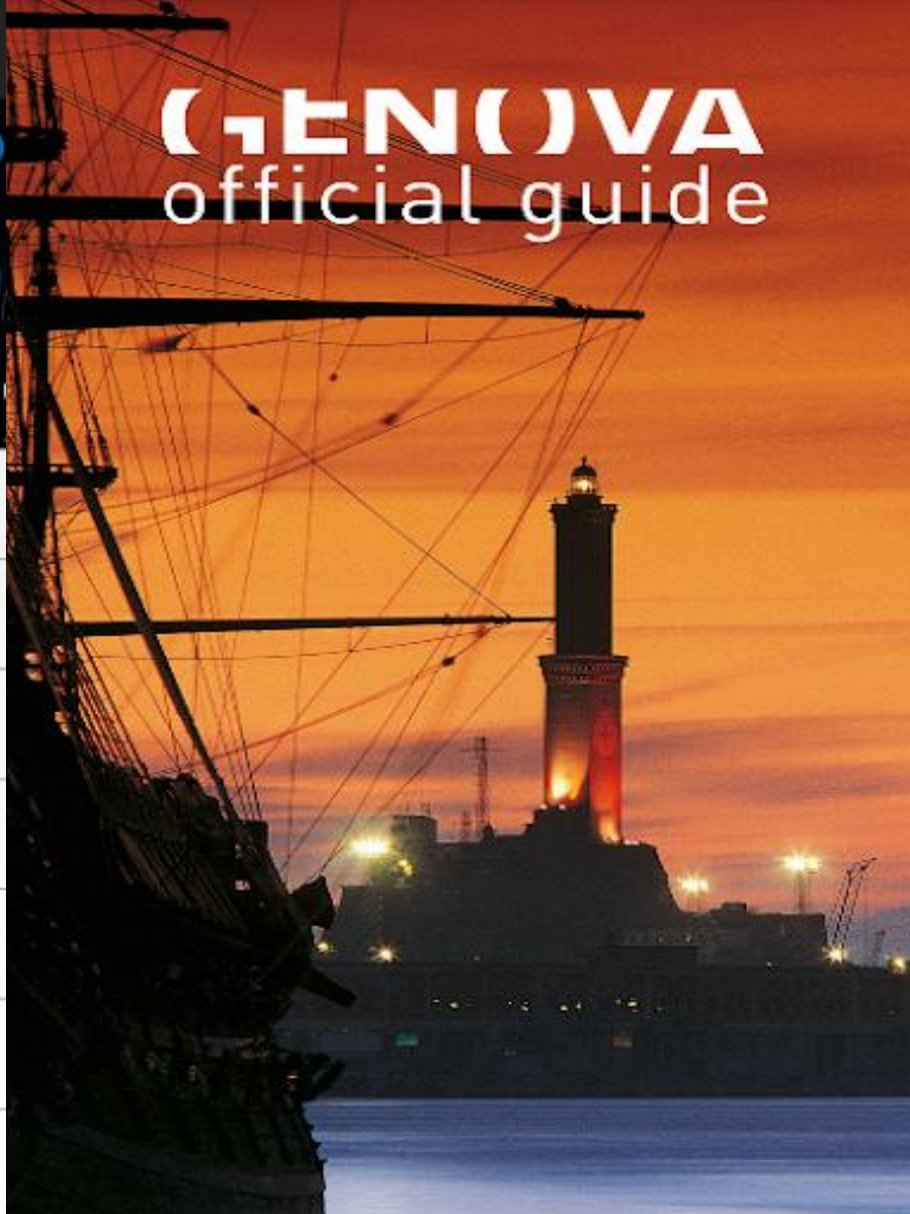

CONS:

- only for girls
- no nightlife

Italian cuisine
