During his/her studies, a student will be awarded:

In the study and pedagogical-educational part: at least 80 credits.

In the creative activity in the field of science (dissertation is not included): at least 105 credits – of which 70 credits for publishing activities and 30 credits for the defence of the dissertation.

Without the dissertation defence, this is 185 credits for compulsory subjects*, which is 77% of the 240 credits required for successful completion of the study.

* The compulsory subjects are defined in the study and pedagogical-educational part, while in the creative activity in the field of science (with the exception of the dissertation defence) all subjects are defined as compulsory optional subjects.
