

Master's Study Programme

ECOLOGY AND ENVIRONMENTAL STUDIES

Faculty of Humanities and Natural Sciences

University of Prešov

University of Prešov

Shape the Future of Our Planet

Join a forward-thinking programme that prepares you to tackle today's most pressing environmental challenges. This programme offers a powerful blend of scientific theory, fieldwork, and real-world application.

You will deepen your expertise in ecosystems, biodiversity conservation, and sustainable landscape management while mastering ecological research methods and environmental solutions. Learn to design and conduct field and lab studies, apply ecological models, and manage complex human–nature interactions.

Through internships and research placements in public institutions, NGOs, and private sector, you will gain hands-on experience and leadership skills. Graduates are equipped for careers in ecosystem management, conservation policy, and environmental research—ready to make a global impact.

Type:	Master's, single-major, full-time
