# **PHYSIOTHERAPY**

**Faculty of Health Care**

**University of Prešov**

# University of Prešov

## Empower Recovery. Lead with Purpose.

Step into a future where your skills change lives. The Master's in Physiotherapy at the University of Prešov blends cutting-edge science, clinical expertise, and human connection. Dive into advanced techniques like kinesitherapy, electrotherapy, and manual therapy, while mastering diagnostics, rehabilitation, and patient care.

You will grow as a leader, thinker, and practitioner—ready to shape the future of healthcare. With real-world training, interdisciplinary learning, and global opportunities, this programme prepares you to thrive in hospitals, rehab centres, and international health systems.

Study in the heart of Europe. Graduate with confidence. Make a difference—one movement at a time.
