University of Prešov

University of Prešov

Advance your academic career through a doctoral programme focused on scientific research, critical thinking, and practical application. The curriculum develops expertise in economic and management theory, research methodology, and data analysis. Students gain experience in teaching, publishing, and presenting at international forums. Offered in full-time or part-time formats, the programme combines on-site and distance learning. Close collaboration with experienced researchers and external partners ensures alignment with real-world challenges and labour market needs. Graduates are prepared for leadership roles in the labour market, both in economic and management areas, as well as within scientific research and educational institutions.
